EXPERIENCE

Louisiana State Police – Technology & Business Support, Data Team **Aug 2026 – Present**
Business Technology Analyst Baton Rouge, LA

- Clean and validate law enforcement operational data, reviewing records in-platform to ensure information is captured accurately and is ready for analysis.
- Introduced Python to the team's data-cleaning workflow; built a geocoding script that converts address information into latitude/longitude coordinates, filling in location data for ~500 records that were missing it.
- Extract and examine records from the Mark43 records management system to support analysis and reporting requests.
- Develop Tableau calculated fields and visualizations that produced accurate figures used in the agency's annual reports.
- Mentored a new hire with no prior Tableau experience, helping them build the skills to contribute to team dashboards and reports.

Capital One **June 2025 – Aug 2026**
Branch Ambassador Baton Rouge, LA

- Educated customers on Capital One products and digital tools, helping them optimize their financial strategies and reduce financial anxiety.
- Served as a Peer Facilitator, mentoring and coaching associates to strengthen product knowledge and service skills; formally recognized as a Product Knowledge SME.
- Executed deposits, withdrawals, transfers, and check cashing while maintaining strict compliance with audit, security, and fraud-mitigation procedures.
- Supported multiple branches across the local market and promoted digital banking solutions while staying current on industry changes.

Diamond Plastics Corporation **Apr 2024 – June 2025**
Extrusion Operator Baton Rouge, LA

- Monitored production performance by tracking hourly measurements and documenting variances, ensuring products met strict quality specifications.
- Operated and calibrated extrusion machinery, adjusting temperature, pressure, and vacuum settings to maximize efficiency and minimize downtime.
- Identified and escalated production issues, collaborating with supervisors to resolve root causes while maintaining a safe, compliant work environment.
